It gives me immense pleasure to present before you the annual report of Delhi International School. “**What we are and what we do**” would be the ideal title for the annual report of our school which strives to achieve great heights in academics and overall development of the children. Delhi International School was conceived by the great visionary Late Smt. Saroj Tola to impart quality education for the children of various parts of Punjab. The vision was put into action by management team. The flame of knowledge and illumination of wisdom spread like wildfire through the services of our dedicated faculty members.

With a deep and visible commitment to excellence in education, the school has incorporated in its curriculum all round development of the students, for which it provides a “Powerful learning environment”. We in DIS aim at recognizing the individuality of each student and make the learning a joyous and creative adventure. For the last 11 years the institution has put in a lot of hard labor and commitment to build our little ones as the great pillars of our society and our nation. The growth of our school can be seen by the growth in the number within the span of Eleven years (more than 1850 students) with 100 plus teaching staff. This indicates the trust of the parents on us. Every time the child comes and returns home after spending the day in the school, with a satisfaction that they have been improved in their knowledge, skills, wisdom, character, physical fitness and emotional intelligence. At Delhi International School we create an environment whereby each student is provided with ample opportunity to think and grow as mature, competent, sincere and hardworking student so that they will be competent enough to meet the challenges in national and international level.

As we all went through the period of Covid 19 pandemic, it was hardest for the education of the children and their upbringing as the formal schooling was halted. Let's thank the Almighty for having brought us out of the testing times. Even during those hard times the team DIS was doing an excellent job by continuously being connected with the parents and students through online classes. We had to learn to manage many things in different ways. Still we were courageous and confident to teach the students through new ways. Thanks to the technology.

In Delhi International School, we are focussed on developing the 21st Century skills in line with NEP 2020. Soon the new curriculum will be introduced in the schools. We need to be equipped to deal with the changing times. The teachers are given continuous training to upgrade their teaching skills in tune with the need of the hour. We focus on developing the 4 Cs of 21st century skills: Critical Thinking, Communication, Collaboration and creativity. We try to provide maximum opportunities for our school students to develop these skills through all our curricular and co-curricular activities.
